The Ride

▼ 👉 BMW-GS based fleet

All late models in excellent maintenance and condition, all equipped with mandatory & comprehensive Insurance, and top case.

▼ 👉 Road Conditions

The tour runs mainly on sealed roads (95%) with some patches of gravel roads (5%, packed gravel - for "any rider").

The roads are in good to excellent condition and maintenance, and are mostly easy to ride (not very technical).

▼ 👉 Moderate Daily Mileage

This is an easy tour to ride, with an average daily mileage of about 250km/day. Some days will be longer, and some shorter of course, with the longest day being 410km.

▼ 👉 Comfortable Riding Pace

The Leading Methodology in Sapirience trips is generally relaxed and flowing, allowing every rider the freedom to ride at own pace.

In addition, the number of sites and activities on this tour is high, so there are many stops and a lot of time spent "not riding" the motorcycle.

▼ 👉 Rest Days

There are 3 destinations on our tour where we stay 2 nights at the same hotel - which means we do a "local ride" - shorter and easier, mainly for sight seeing and other experiences.

Additionally, a rider can choose not to join the ride on any of those days in case one wants to rest for a day.

The S-Factor

▼ 👉 Spectacular hotels

Luxurious boutique hotels carefully selected for maximum comfort and a variety of "added values" to our Journey - natural beauty, cultural or historical heritage, culinary specialty, a place to fit in the day's storyline, or simply the quality of services or atmosphere... **All accommodations were hand-picked and are essential in the overall "Diamond" experience.**
